

FlavoClean 261

Methyl Ethyl Ketone

Description

FlavoClean 261 (Methyl Ethyl Ketone) is clear, colorless, mobile solvent cleaners. This is intended for use as a general industrial solvent cleaner for oils, greases and all kinds of engineering components and assemblies.

FlavoClean 261 (Methyl Ethyl Ketone) is ASTM D740, solvent designed to meet the rigorous standards of the aerospace industry. Available in a wide range of container sizes, it offers versatility to suit various needs.

Method of use

FlavoClean 261 (Methyl Ethyl Ketone) is renowned for its effectiveness as a cleaning solvent, making it a preferred choice among mechanics and aviation professionals in the hangar.

May be used by any of the conventional methods such as spraying, dipping, brushing or swabbing. Soak tanks should be constructed with a lid in order to minimize solvent losses by evaporation.

It is emphasized that when using dipping methods, grease and oil will go into solution and this will leave a film on the surface of components after evaporation of the solvent. This problem may be overcome by rinsing in a second tank of the product.

Properties

Appearance	: Clear, colorless, liquid
Relative Density at 20° C	: 0.80 gm/ml
Purity	: NLT 99.50 %
Water	: Max. 0.05 %
Acidity	: Max. 0.003 %
Nonvolatile matter	: Max. 5 mg/100 ml

Note : This is typical property values only, not to be construed as specifications.

FlavoClean 261

Methyl Ethyl Ketone

Storage condition

As with all solvent cleaners, a first-in, first-out stock rotation is recommended.
Recommended storage temperature 20°C to 30°C. Store in original containers.
Store in a cool, dry, well-ventilated area suitable for storage of flammable materials.

Packaging

Available in 1 liter, 25 liter and 200 liter barrel.

Specification Conformances

ASTM D740

FlavoClean is a brand owned by SNJ Biotech Pvt. Ltd. And maintains material safety data sheets on all of its products. Material safety data sheets contain health and safety information for your development of appropriate product handling procedures to protect your employees and customers. Our material safety data sheets should be read and understood by your personnel before using SNJ Biotech Pvt. Ltd. products in your facilities.
