

DATASHEET

MARSHALLING HELMET

DESCRIPTION: Marshalling helmet is made out of a fiberglass composite, utilizing and an anti-microbial comfort liner making it the lightest aviation marshalling Helmet and it's quality certified by DGAQA (MOD) India. Features quick release trim and a buckle system.

FEATURES

1. **Airflow Comfort Liner:** A breathable material that promotes air flow circulation and cooling. Made from Fire Block, a fire-resistant composite, this moisture wicking liner draws sweat away from the wearers head.
2. **Pure Optics Goggle:** The Anti-fog UV lens provides premium optics, reduces glare and supports a wider field of vision. TPR moulded Visor Retainers mounted on the shell keep the visor from sliding off the helmet.
3. **Flow-Vents:** Promotes ventilation and enhanced cooling with strategically engineered exhaust ports designed to pull cool air in and push hot air out.
4. **Quick Release Buckle:** Quick Release allows the fasteners to be conveniently opened and closed single handedly.
5. **Poly Fusion Shell:** Is the first line of impact defence and is designed to withstand the impact forces you'll encounter inside and outside the cockpit. In addition, this shell is engineered to maintain structural integrity in extreme temperatures.
6. **Headset Integration:** Designed and options to fit a wide variety of communication units as it has ear cup and soft leather ear capsule you may insert the any kind of earphone and microphone as per your requirements.

SPECIFICATION

- | | |
|--------------------|---|
| 1. Outer shell | : Fiber Glass 200 GSM/ Carbon Fiber 150 GSM |
| 2. Noise Reduction | : 33-40dB (Max) |
| 3. Visor | : Single Tinted (UV Coated and Anti Scratch Coated) |
| 4. Visor Cover | : Soft Linen with Locking Button |
| 5. Chin Buckle | : Quick Release Nylon 66 Harness. |
| 6. Weight | : 1.2 kg |
| 7. Earmuff | : Soft Sheep Leather |
| 8. Finish | : PU Coated (Glossy Yellow) |
